🏫 Welcome to Brain Boosters Institute of Computer.

Our institute is a Government Registered & ISO Certified Computer Education Institute committed to delivering high-quality, industry-oriented training. We focus on practical learning, skill development, and career growth to prepare students for real-world success in the digital era.

With modern classrooms, experienced faculty, and updated curriculum, we ensure students gain professional expertise along with strong technical foundations.

💁 Founder & CEO

Under the visionary leadership of **Aj Mehra**, the institute has been established with a mission to provide affordable, practical, and career-focused computer education.

His goal is to empower students with digital skills that create job opportunities, business growth, and financial independence.
