9	Healing Brush Tool	This is a very amazing tool, with the help of this you can do painting in those areas where you feel that this color is needed here and where and how do I get this color which is exactly the same color, then in this way you Select the tool and pressing Alt in the keyboard, go to the area from where you want to steal the color, after that you can use it as pants by going to the place where you want to use it. Examples:- (i) If someone's hair is not black, then with the help of this you can black (ii) You can use this tool if you want to use the multi-color of some other man's clothes elsewhere. (iii) You can also use it to clean the face ...
10	Patch Tool	✎ We use this tool inside Photoshop when we feel that there is a need for some repair here in this image, assuming that the left side of a person's cheek is looking good and the right side is not good. If you want to see, you want to have the right side cheek like the left side, and then this is used for this. For this, you first select this tool, then press Alt and select the part which is not good and then leave it by moving it to the part which is good, and then finally you will see that both sides will be the same. Note:- It is mostly used to clean the face. If the face has more pimples or half the face is looking good and half is not looking good, with the help of this tool you can manage it and make the face more beautiful. Apart from this, it is also used in many things.

11	**Brush Tool**	✍ You understand that this is the brush in actual, because it works like a full brush. You can do painting work anywhere by choosing any color.
12	**Pencil Tool**	✍ When painting with the Brush Tool, there is not much highlight; its edges are always visible, which looks slightly grayish-brown type. But when the painting is done with the pencil tool, it looks more highlight, from where you start painting, the entire area will look dark from where you will be painting, but not so much with the Brush tool.
13	**Clone Stump Tool**	✍ From its name itself, the work is being known that what can we do with the help of this tool? Yes, with the help of this tool, you can make any image a Clone, i.e., I mean to say that if you select someone's eye, then after that you can make as many eyes as you want, keeping in mind that whatever If you want to make a clone, you have to select it by pressing Alt and then use it as a brush. Note: - If you choose a man's eye, ears, hands or feet, you can put 10 or more eyes, ears, hands or feet in the same man. And someone's eye, ear, nose, hands or feet etc. can be put in someone else. If someone does not have eyes, nose, ears etc., with the help of this tool you can apply.

14	**Pattern Stamp Tool**	✍ It is also a kind of painting tool, but it does pattern painting when you select this tool and after that when you rotate it like a pencil, it will paint like a pattern, you can change the style of the pattern if you want to. Let's click on the pattern option shown in the Properties bar.
15	**History Brush Tool**	✍ I love this tool in Photoshop because it allows us to get any of our photos or other things back to original, that is, if you edit a photo and you mess something up in that photo or accidentally the photo If you do not want to do more editing, then with the help of this tool you can bring it like the original
		Keep in mind that the farther you move this brush, the farther the original photo will appear, you can increase or decrease its size by pressing the right button of the mouse.
16	**Art History Brush**	✍ While the History Brush tool converts the spoiled image or face to the original as before, with the Art History Brush tool you can spoil any image that has been made, as well as make art work from it, which It was used in earlier times, but it does not come in use anymore…
17	**Eraser Tool**	✍ We use it to erase a single layer, that is, when you Erase any image or other things, it will slowly disappear and the background of your page will start to appear ...

18	**Background Eraser Tool** Eraser Tool Background Eraser Tool	✎ With this, you can erase your image like a background transparent means to erase the background and nothing else...
19	**Magic Eraser Tool** Eraser Tool Background Eraser Tool Magic Eraser Tool	✎ It is also a background eraser tool but it is a little magical when you select this tool and background Erase, then this tool will only erase the same color at once which is quite magical ... Note:- If you take a photo in some place where the background color is the same. So with the help of this tool you can remove his background in a pinch.
20	**Gradient Tool** Gradient Tool Paint Bucket Tool	✎ Let me tell you that by using the Gradient tool you can give the best look to the color of any page. Because it is a group of many colors as well as you can customize it yourself, and add whatever color.
21	**Paint Bucket Tool** Gradient Tool Paint Bucket Tool	✎ Understand that this is a bucket carrying color, which you can choose a color from either of the foreground or background and fill the color wherever you want with the help of this tool. ..
22	**Blur Tool** Blur Tool	✎ By this you can blur any photo that you can bring a little or more blur in any photo. The more you keep its capacity, the more blur it will be and yes, to reduce or increase the capacity you can look in the properties bar above and from there you can reduce or decrease its capacity.

23	Sharpen Tool Blur Tool Sharpen Tool Smudge Tool	✍ With the help of this tool, you can bring a little Sharpen or a little Darkness in any image that will cause some light to come in your image and yes, the farther you move this tool, the farther your Image Sharpen will be....
24	Smudge Tool Blur Tool Sharpen Tool Smudge Tool	✍ Using this tool in actual you can get laughter because it is such a tool, you can make things big or small by using this tool to make someone's nose, head, face, stomach, hands or feet etc. Means tampering with any image i.e. dragging….
25	Dodge Tool Dodge Tool Burn Tool Sponge Tool	✍ Using the Dodge Tool, you can brighten any particular place and bring lighting to it.
26	Burn Tool Dodge Tool Burn Tool Sponge Tool	✍ Where you bring lighting to any place with the Dodge Tool, the Burn Tool darkens any place, you can darken any Particular Area with the help of this tool ... In actual, it is used in darkening hair, shaving the beard, darkening the eyes, etc.
27	Sponge Tool Dodge Tool Burn Tool Sponge Tool	✍ Using this tool in actual, you can bring blondness to any image, means that when you use this tool on any image, you will get to see some effect on that image. If you look carefully, you will find that some lighting has started appearing in the image, which can be considered a good effect.
